EXPERIENCE

Cinch New York, NY
Founder & Product Engineer 2026 – Present

- Built, shipped, and currently operate a production consumer iOS styling app end-to-end, owning React Native, Expo, and TypeScript development, Supabase/PostgreSQL infrastructure, AI systems, subscriptions, analytics, and App Store releases
- Engineered a closet-grounded AI styling system that generates daily outfits from garments users actually own, accounting for weather, plans, and past behavior, with structured outputs, fallback models, usage limits, and cost controls in production
- Implemented row-level security, transactional writes, idempotent commands, subscription reconciliation, and offline recovery, and managed safe database migrations and coordinated production releases across TestFlight and the App Store
- Shipped social closet features including shared wardrobes, event outfit voting, and borrow requests, and drive user activation, paywall conversion, attribution, and retention through analytics-led product iteration and content experiments

Office Hours New York, NY
Client Solutions Associate 2026 – Present

- Designed and deployed an agentic AI operating system for expert-network project execution, building versioned context files, custom skills, and automated document pipelines that turn raw client briefs into platform-ready builds in minutes
- Built and iterated 4 production AI skills through 11+ versions in 30 days, encoding team sourcing methodology, screening standards, and MNPI compliance guardrails into repeatable workflows shared across the Client Solutions pod
- Standardized colleagues' individual playbooks into unified team tooling adopted across the team, including outreach template libraries, a merged expert-sourcing skill, and a Notion project tracker with auto-computing traction metrics

MetaOrtho Dallas, TX (Remote)
Co-Founder & Product / Engineering Lead 2025 – Present

- Solely designed, engineered, and shipped a physician-led GLP-1 telehealth product end-to-end — marketing site, branching clinical assessment with tiered risk scoring, patient-portal dashboard, and a cash-pay booking and checkout flow
- Built a longitudinal health dashboard that rolls 28 biomarkers across six body systems into a single 0–100 GLP-1 Optimization Score, with integrated DEXA, lab, clinical visit, and side-effect tracking over time

Glacwell LLC Dallas, TX
CEO & Founder 2026 – Present

- Founded an autonomous e-commerce operation run by a network of AI agents that manage product research, ad optimization, and daily store operations, with human oversight limited to a single store manager leading day-to-day staff

Better Brain New York, NY
Start-up Intern Jul 2025 – Aug 2025

- Built and launched a complete e-commerce storefront from scratch and sourced 15+ manufacturers and wholesalers to stand up the company's supplement manufacturing and fulfillment operation

EARLIER EXPERIENCE

Broadway Bank San Antonio, TX
Private Wealth Management Intern May 2025 – Jul 2025

- Built custom portfolio models in Fi-Tek GWES, trained portfolio managers on their use, and introduced AI-driven investment strategies and model creation to support a $3.6B asset allocation meeting, materially improving operational efficiency

Hey! Food is Ready London, England
Summer Intern Jul 2024 – Aug 2024

- Generated an additional 20% in revenue by expanding the clientele base through market analysis and strategic outreach, and collaborated directly with the CEO to revamp the business model and prepare investor presentations for its second funding round

EDUCATION

Southern Methodist University Dallas, TX
Cox School of Business — Bachelor of Business Administration, Finance May 2026

- Cumulative GPA: 3.80/4.00 and ACT: 34/36, maintained while founding two companies and completing four internships
- EnCap Investments & LCM Group Alternative Asset Management Center Program (selective alternative-asset honors program); Second Century Scholarship, awarded to select first-year students for strong academics, character, and achievement
